Professional Summary

Telecommunication Engineering graduate from Telkom University with experience in antenna design, radio communication, teaching, and research. Proficient in Android app development and UI/UX design. Strong analytical and communication skills with the ability to work both independently and in a team. Ready to contribute to the technology and telecommunications industry.

Education

- **Telkom University – Bachelor of Telecommunication Engineering (2021 - 2025)**
 - GPA: 3.66/4.00, Total Credits: 145
 - Relevant Courses: Java, Algorithm and Programming, Python Programming, Communication Systems, Data Communication Networks, Telecommunication Networks, Radar Navigation, Remote Sensing, Antennas, and Propagation

Courses & Certifications

- **Software Engineer Course – RevoU (March 2025 - Ongoing)**
- **Front-End Web Development Course – Digital Skill Fair (March 2025- Ongoing)**

Organizational Experience

- **Director of External Affairs | Society of Renewable Energy Telkom University (2023 - 2024)**
 - Maintained relationships with internal and external stakeholders, secured sponsorships, and coordinated two divisions.
- **Research and Development | Electrical Circuit Laboratory, Telkom University (2023 - 2024)**
 - Managed event timelines, sourced competition information, and taught Electrical Circuit Practicum.
- **Treasurer ARD 4.0 | Antenna Laboratory, Telkom University (2023 - 2024)**
 - Managed financial income and expenses.
- **Presidential Staff | Society of Renewable Energy Telkom University (2022 - 2023)**
 - Organized regular meetings, supervised events, and coordinated staff.

Committee Experience

- **Public Relations Coordinator | TESLA 2023 & Public Relations Staff TESLA 2022**
 - Managed media partners, distributed invitations, and served as an MC.
- **Event Staff | Perfect 2023**
 - Developed event concepts, rundowns, and timelines.
- **Treasurer | Bisniskupedia (2021 - 2022)**
 - Managed financial operations for the organization and its café business.
- **Competition Development | Archatel Telkom University (2021 - 2022)**
 - Researched competitions, prepared participants, and served as an MC.

Work & Internship Experience

- **Engineer | PT LEN Railways System (2024)**
 - Designed and developed antennas for railway communication systems.
 - Conducted simulations and testing to ensure signal reliability.
 - Collaborated with the team on system integration.
- **Antenna Researcher | PT Radar Telekomunikasi Indonesia (2024)**
 - Designed and developed LPDA antennas for drone jamming.
 - Conducted simulations and optimization of antenna design.
 - Performed testing and analysis of antenna performance.
- **Research Assistant | Antenna Laboratory, Telkom University (2023 - 2024)**
 - Conducted research on antenna design and testing.
 - Analyzed antenna performance using simulation software.
 - Contributed to research publications.
 - **Evaluation & Assignment Division** – Responsible for student task assessments and performance evaluations.
- **Laboratory Assistant | Electrical Circuit Laboratory, Telkom University (2022 - 2024)**
 - Taught second-year students in electrical circuit practicum courses.
 - Developed teaching materials and experiment modules.
 - Assisted in student evaluations and assessments.
 - **Study Group Leader** – Led student study sessions to reinforce practical concepts.
 - **Recruitment Public Relations** – Managed the recruitment process for new laboratory assistants.

Skills

- **Languages: Indonesian (Fluent), English (Intermediate)**
- **Antenna Design & Simulation (CST Studio Suite)**
- **Android App Development (Dart, VSCode)**
- **UI/UX Design (Figma)**
- **Communication & Leadership**
- **Project & Financial Management**
- **Teaching & Research**
- **Academic Evaluation & Recruitment**
